It used to be - not long ago - that when we saw something that transcends our understanding of the world we experienced awe. It could have been a natural phenomenon, a technological innovation, or a glimpse into the unknown. Now, the definition of awe has expanded to include the endless miracles we encounter in our daily lives. Endless Miracles is a memoir by Jack Ratz, a Latvian Jew who survived the Holocaust. In the book, Ratz shares his experiences of witnessing miracles during his time in Latvia. Despite the murder of his mother and four brothers, Ratz tells of endless miracles he witnessed during the ordeal: how he and his father survived the Nazis.
